

PRODUCT NAME EVA/PS FOAM SHEET @ PP BOARD.

PRODUCT DESCRIPTION: EVA/PU FOAM, PP Board, It is a kind of perforated foaming material, featuring insulation, heat insulation, sound absorption, shock absorption, flame retardancy, anti-static properties, and good air permeability. It is widely used in the construction field for functions such as expansion joint filling, water quality filtration, and sound insulation.

PRODUCT NAME PU FOAM SHEET.

PROFITABLE FACT: The middle layer of the air bubble film is filled with air, featuring elasticity, sound insulation, shock absorption, and wear resistance. It is widely used in building materials, electronic equipment, instruments and meters, ceramic products, handicrafts, household appliances, kitchen utensils, furniture, and glass products, etc.

製品カタログ
Product Catalog

He Yong Packaging (Shenzhen) Co., Ltd., established in 1995, specializes in manufacturing flame-retardant insulation materials, cushioning materials, and filling materials.

We primarily supply building insulation materials such as EPE foam, EVA foam, XPE foam, and EPS foam, widely used for floor insulation, wall insulation, and ceiling and roof insulation. Additionally, we produce expansion joint filler rods, copper pipe insulation tubes, and protective mesh screens.

Our products offer advantages including earthquake resistance, moisture resistance, waterproofing, fireproofing, and thermal insulation. Foam which are used for the floor insulation, wall insulation and ceiling & roof insulation etc. In the meanwhile, we also produce filler rod for the expansion joint, insulation pipe for copper pipe, and protective screening.

The advantage of our products includes: shockproof, moistureproof, water proof, fire proof, heat insulation, and anti-static, anti-corrosion sound insulation, soft and light weight etc.

We emphasize our tenet of "Only customer's success is our development". To learn win the business and the trust of society by the quality, value and best service.

By constantly strengthen internal management, our company has already awarded the certificate of Green Partner, ISO9001, 2000 international Quality System authentication. Besides, we also have several test report of our products, such as MSDS, Sgs. We are looking forward to work together with you, sustainable management and development!
